Descriptions

Step aboard Highgrove, an award-winning, breathtaking masterpiece with a reverse layout that impeccably merges luxury with eco-conscious design. Crowned as the Favourite Boat at the Crick Boat Show 2024, this 4-berth marvel is a testament to the exceptional craftsmanship of Colecraft Engineering and Kingsground Narrowboats.

From its stunning exterior to its immaculately designed interior, Highgrove epitomises both luxury and sustainability. The boat is adorned with rich walnut, soothing creams, and vibrant greens, accented by striking blue tiles reminiscent of clear skies, and features bespoke oak leaf patterns, each detail symbolising a perfect harmony with nature.

Step inside to a layout that exudes comfort and convenience. The cruiser stern seamlessly transitions into the galley, where modern appliances meet rustic charm. The dinette beckons for cherished meals with loved ones, while the saloon offers a cosy haven with ample natural light streaming through expansive windows.

The bathroom features modern amenities, including a Vetus ceramic pump-out toilet, and the bedroom provides a tranquil sanctuary for rest and relaxation. The interior is a symphony of comfort and sustainability, with durable linen textiles that embody both strength and eco-consciousness. Locally sourced materials are used wherever possible, and many elements are repurposed, breathing new life into old treasures and reducing environmental impact. Copper rings embedded in wood and rounded finishes evoke rustic charm, while quartz tops add a touch of contemporary luxury. Every detail reflects a commitment to minimizing waste and maximizing beauty throughout this exquisite vessel.

Inspired by the ever-changing beauty of Highgrove Gardens, Highgrove reflects the harmonious balance found in nature's palette. From vibrant greens to muted earth tones, every shade tells a story of seasons past and present, bringing the natural world into your private sanctuary on the water. Experience the pinnacle of narrowboat living aboard Highgrove, where modern luxury meets timeless elegance on the water.
